Hello!!

We are Nikki and Chris and we want to adopt a child. We feel honored that you might consider us to be part of your life as your child's adoptive parents. We wouldn't pretend to know how you feel or what you are going through. We do know that it takes a brave and loving person to consider adoption for her baby. We like to think that it's possible that we can provide you comfort, but only you can decide.

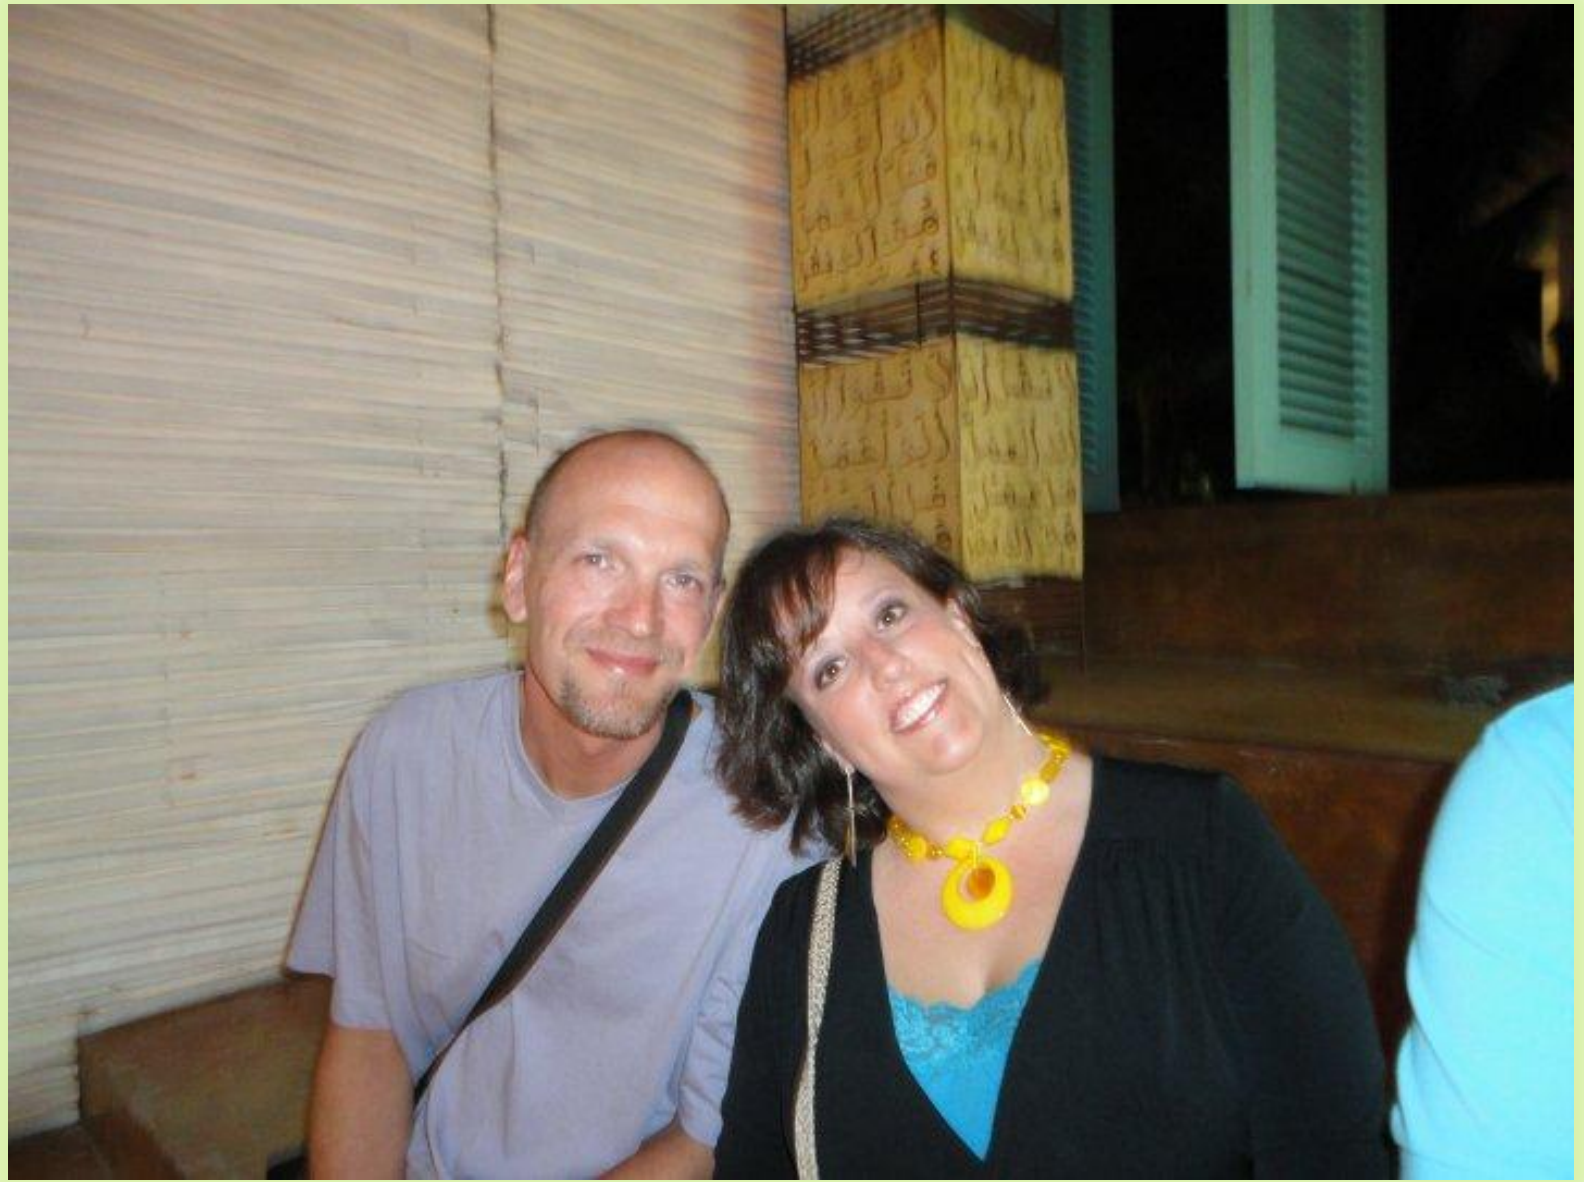

Please be assured that any child with whom we are blessed will be loved, supported, and cared for unconditionally for the rest of his/her life.

A LITTLE BIT ABOUT US:

We are both 37 years old, Nikki is six days older than Chris. Chris must like older women!☺ We live in Central Illinois in a cozy ranch style home. We realized pretty early in our marriage that adoption might be the answer for us having a family because of infertility issues. Adoption has also personally touched our lives. Chris's mom placed a child for adoption, Nikki's grandmother was adopted as a baby, and her sister-in-law's sister adopted a child 9 years ago. We know first hand that adoption is a wonderful way to build our family.

HOW WE MET:

We met at work back in 1997. We were both working third shift and had an instant attraction to each other. To make a long story short, the timing wasn't right for us at that moment. Nikki was in a serious relationship, and Chris took a promotion that took him out of Indiana. We barely stayed in touch, maybe a phone call a year. After six years we started talking more regularly and rekindled the old spark! Nikki moved to Indiana and we were married two years later in Vegas. Both our families flew out with us and we had a great time! We have now been happily married for six wonderful years.

ABOUT NIKKI:

I have always wanted to be a mom and can't wait for the day that dream comes true. I grew up in a small town in Central Illinois with two brothers. I am the middle child and the only girl. My older brother, Chris, is married to Stephanie and they have three children, Hailey 13, Elaina 11, and Colby 9. The kids are eager to spend time with their new cousin. My younger brother is Scott.

I work at a retail store as the retail administrative assistant. On the weekends I like to go camping, bowling, bike riding with our dog Buddy, who runs on a leash beside me, reading books, and attempting to landscape my yard (so far all plants are still living☺)!! In my spare time I enjoy spending time with our other 4 pets, Taco our other dog, and our 3 cats, BJ, Puppy, and Pedro. They keep me very entertained. I enjoyed going to Mexico with Chris and relaxing by the beach and playing in the ocean. We went to Acapulco for our 30th birthdays and again for one of my friends 30th last year. Chris is my rock and my best friend. He loves me unconditionally and I love him for all the happiness he brings to my life.

ABOUT CHRIS:

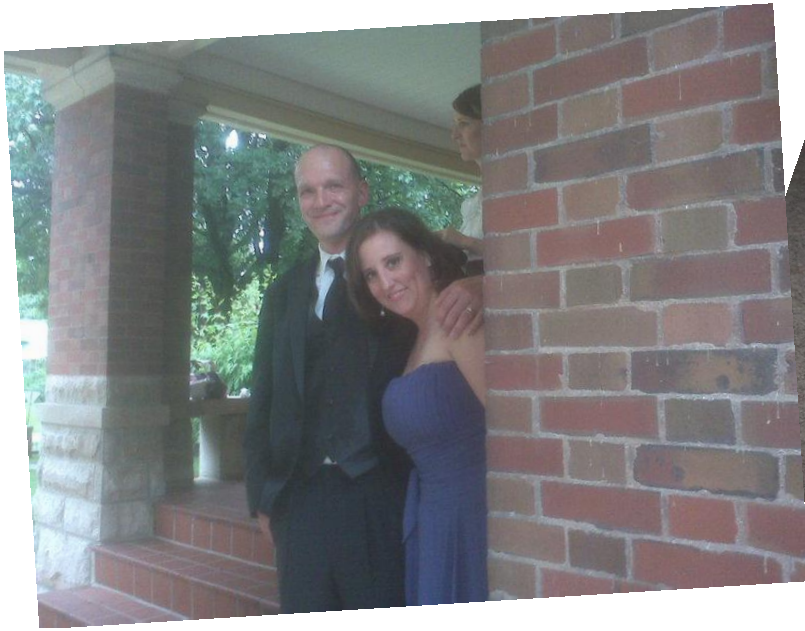

I was born in England and moved over to the states when I was eleven. I have two brothers and one sister. My oldest brother lives forty miles from me with his wife, Stacy, and two children, Hannah 13 and Trevor 8. My younger brother is Alan, he is in the Air force based in Washington. I don't see him as much as I would like, but he is doing really well and we are proud of him. My sister Tracy lives in England and she tracked our family down eleven years ago. We always knew that my mom was a birth mother, but didn't imagine that the child she placed would ever be able to find us. My mom was ecstatic when she got the phone call from her daughter. My mom traveled to England to see her almost immediately and she has been a part of the family ever since. My mom now lives in Utah, the weather there treats her arthritis better. She is an administrator at a nursing home. She just kept going to school until she got to where she wanted.

I, like Nik, also work in retail. I am a Produce Manager, I have worked for the same company for 16 years now. Nikki and I work for the same company but different stores. I enjoy a very flexible work schedule that I love. I enjoy camping and fishing, while I'm fishing Nik is usually reading a book. I love watching football, the fall can never get here quick enough! I enjoy going to the movies, and hanging out with friends. We usually have friends over to cookout throughout the summer, and we also spend time at their houses doing the same. Some of our friends have children and some are expecting this year. We so much want to experience the joys and challenges of being parents. Nik is very loving and dependable, I could not be happier with her in my life, and I know that she will make a great mother.

VACATIONS:

We definitely like to take vacations! Some of our vacations are spent camping, some take us to Mexico. We were able to go to Mexico in 2010 with some good friends of ours. We had a great time snorkeling and lounging on the beach. Chris's mom lives in Utah so we like to get a vacation down there once a year. We love amusement parks and roller coasters. Sometimes we take a vacation and just relax, work around the house and yard, or go to bed with a movie. Those are good weeks also. We can't wait to share our lives with our child.

THANK YOU:

In closing we would like to express a sincere Thank You for taking the time to read our profile. Please know that your child will grow up in a loving home with loving relatives. Our entire family are excited for us to be parents and surround your baby with love and their complete attention.

If you would like to speak with us or meet us we are available anytime. We hope for peace of mind in your decision whatever direction it may take you.
